HIPPA NOTICE OF PRIVACY PRACTICES

THIS NOTICE DESCRIBES HOW MEDICAL INFORMATION ABOUT YOU MAY BE USED AND DISCLOSED AND HOW YOU CAN GET ACCESS TO THIS INFORMATION. PLEASE REVIEW IT CAREFULLY. This Notice of Privacy Practices describes how Apex Family Chiropractic, LLC (AFC) may use and disclose your protected health information (PHI) to carry out treatment, payment or health care operations (TPO) and for other purposes that are permitted or required by law. It also describes your right to access and control your PHI that may identify you and that relates to your past, present, or future physical or mental health or condition and related health care services.

USES AND DISCLOSURES OF PROTECTED HEALTH INFORMATION

Your PHI may be used and disclosed by your physician, AFC office staff, and others outside of our office that are involved in your care and treatment for the purpose of providing health care services to you, to pay your health care bills, to support the operation of AFC, and other use required by law.

TREATMENT: AFC will use and disclose your PHI to provide, coordinate, or manage your health care and any related services. This includes the coordination or management of your health care with a third party. For example, AFC would disclose your PHI, as necessary, to a home health agency that provides care to you, or to a physician to whom you have been referred to ensure that the physician has the necessary information to diagnose or treat you.

PAYMENT: Your PHI will be used, as needed, to obtain payment from your insurance company for your health care services. For example, obtaining approval for a hospital stay may require that your relevant PHI be disclosed to the health plan to obtain approval for the hospital admission.

HEALTHCARE OPERATIONS: AFC may use or disclose, as needed, your protected health information in order to support the business activities of AFC. These activities include, but are not limited to: (a) quality assessment activities; (b) employee review activities; (c) training of medical students; and (d) licensing and conducting or arranging for other business activities. For example, AFC may disclose your PHI to medical school students that see patients at the office. In addition, AFC may use a sign-in sheet at the registration desk where you will be asked to sign your name, may call you by name in the waiting room when your physician is ready to see you, may use or disclose your PHI as necessary to contact you to remind you of your appointment by leaving a message on a recorded answering system at your home or office.

At AFC, it is the practice of this office to provide chiropractic care in a "semi-closed" environment. "Semi-closed" adjusting involves patient care in a setting where other patients in the reception area are able to see into the adjusting rooms, as well as possibly hear what is being discussed in the adjustment room. This environment is used for ongoing care and is NOT used for initial examination and patient history consultation. We are requesting this authorization of you due to various interpretations under federal law with respect to what is known as "incidental disclosure" of health information. I accept and agree to being treated in this "semi-closed" environment and understand the potential risk for incidental disclosure and do not hold Apex Family Chiropractic liable for such actions.

- **I give AFC permission to use my address, phone number, and clinical records to contact me with appointment reminders, missed appointment notification, birthday cards, holiday related cards, newsletters, information about treatment alternatives, or other health related information.**
- **If AFC contacts me by phone, I give them permission to leave a message on my voice mail or answering machine.**
- **I give AFC permission to use my name on the welcome board, referral board, birthday board, prize winning notices, and community information (i.e. newspaper clippings).**
- **I give AFC permission to adjust me in a semi-closed room setting where other patients and office staff may be able to overhear some of my PHI during the course of care. This semi-closed room environment is used for ongoing care, and is not the environment used for taking patient histories, performing examinations, or presenting report of findings, as these procedures are completed in a private, confidential setting.**

TERMS OF ACCEPTANCE/ CONSENT TO TREATMENT

When a patient seeks chiropractic health care and we accept a patient for such care, it is essential for both to be working towards the same objective. Chiropractic has only one goal. It is important that each patient understand both the objective and the method that will be used to attain it. This will prevent any confusion or disappointment.

- ◆ **Adjustment:** An adjustment is the specific application of forces to facilitate the body's correction of vertebral subluxation. Our chiropractic method of correction is by specific adjustments of the spine.
- ◆ **Health:** A state of optimal physical, mental and social well-being; not merely the absence of disease or infirmity.
- ◆ **Subluxation:** A misalignment of one or more of the 24 vertebra in the spinal column which is caused by an alteration of nervous system function and interference with the transmission of mental impulses, resulting in a lessening of the body's innate ability to express its maximum health potential.

We do not offer to diagnose or treat any disease or condition other than subluxation. However, if during the course of a chiropractic neurological examination, we encounter non-chiropractic or unusual findings, we will advise you. If you desire advice, diagnosis or treatment for those findings, we will recommend that you seek the services of another health care provider.

Regardless of what the disease is called, we do not offer to treat it. Nor do we offer advice regarding treatment prescribed by others. OUR ONLY PRACTICE OBJECTIVE is to find and remove vertebral subluxations. Our only method is specific adjusting to correct neurological subluxations.

I hereby consent to and authorize the administration of all diagnostic and chiropractic treatments that may be considered advisable or necessary in the judgment of Apex Family Chiropractic, LLC. **I also certify that no guarantee or assurance has been made to the results that may be obtained. I understand and agree that health and accident insurance policies are an arrangement between an insurance carrier and me. Furthermore, I understand that while Apex Family Chiropractic, LLC may prepare necessary reports and forms to assist me in making collections from the insurance company, all services rendered to me are charged directly to me and I am personally responsible for payment.**

I have read, understand, and agree to, the above statements.
